

Na de Brexit extra zendingsgegevens ingeven bij uw ferry- en shortsea-boeking

Na de Brexit is bij import de partij die de goederen de EU binnenbrengt (de ferryoperator of shortsea-rederij), verplicht om extra gegevens aan de Douane te sturen over de goederen die:

1. in de EU van boord gaan (ENS-aangifte).
2. in de specifieke loshaven gelost worden (ATO-aangifte).

Als boekende partij van een ferry- of shortsea-overtocht van het Verenigd Koninkrijk naar Nederland, dient u de ferryoperator of shortsea-rederij te voorzien van de gegevens die aan de Douane gestuurd moeten worden. Daarom vraagt de ferryoperator of shortsea-rederij u om na de Brexit bij uw boeking een aantal extra gegevens in te vullen. Alleen dan kan aan deze extra douaneverplichting worden voldaan.

Onderstaand het overzicht van de benodigde zendingsgegevens op boekingsniveau, op zendingsniveau en op goederenniveau. U ziet in één oogopslag of u als boekende partij de data moet aanleveren of dat de ferryoperator/shortsea-rederij dit voor zijn rekening neemt.

Let op!

- Deze informatie betreft de aan te leveren zendingsgegevens bij import. De verwachting is dat er bij export (lading vanuit Nederland naar het VK) pas op zijn vroegst eind 2023 extra informatie hoeft te worden aangeleverd. Uw ferryoperator of shortsea-rederij heeft hierover de laatste informatie.
- De omschrijving van de benodigde data kan per boekingsportaal verschillen.

Booking

U doet per transporteenheid één ferry- of shortsea-boeking.

Working document EN v4.10

**Guidance on acceptable and unacceptable terms
for the description of goods**

DISCLAIMER

It must be stressed that this guidance document does not constitute a legally binding act and is of an explanatory nature. Legal provisions on customs legislation take precedence over the contents of the guidance document and should always be consulted. The authentic texts of the EU legal instruments are those published in the Official Journal of the European Union. As regards judgements of the Court of Justice of the European Communities, the authentic texts are those given in the reports of cases before the Court of Justice and the Court of First Instance.

1. INTRODUCTION

The revised Annex B and Annex D to the Commission Delegated Regulation (EU) 2015/2446¹ laid down that goods description (for the columns A1, A2, D3, G4, G5, H6, H7 and all F columns used for data element 18 05 000 000 respectively column H6 used for data element 6/8) “is a plain language description that is precise enough for Customs services to be able to identify the goods.”

In the Notes in relation with data requirement 18 05 000 000 ‘Description of goods’, the revised Annex B to the Commission Delegated Regulation (EU) 2015/2446 provides (for A1, A2 and all F columns) that “General terms (i.e. “consolidated”, “general cargo”, “parts” or “freight of all kinds”) cannot be accepted. A non-exhaustive list of such general terms and descriptions is published by the Commission”.

The objective of this guidance is to meet the legal requirement to publish such a list where legally required and to give guidance for all situations where a plain language description is required.

This legal requirement stems from the need for customs administrations to be able to base their risk-analysis on adequate descriptions of goods, in particular where a commodity code is not provided by the declarant of the summary declaration. A too vague description of the goods would not provide Customs administrations with the means to identify consignments, which might represent risks for the Union and its citizens; this might lead to unnecessary and costly efforts and delays in the supply chain; such as physical examinations of the insufficiently described goods concerned, in order to ascertain their real nature.

The list of generic, unacceptable terms and the suggested alternatives that would be acceptable by customs, hereafter referred to as "the list", is contained in the Annex to this guidance.

2. PRINCIPLES

- 2.1. The list is not of an exhaustive nature, and aims at providing examples of unacceptable and acceptable wordings that are meant as a guidance.
- 2.2. The list is by nature dynamic. Everyday practice will show that new unacceptable terms will be identified and will need therefore to be added to the list as time goes by. This dynamic aspect of the list will require a certain level of maintenance by the Commission in coordination with Member States.

3. PUBLICATION

Given its dynamic nature, and the importance to provide quick updates, the list needs to be published on the internet, in any respect on TAXUD website, for the benefit of all potential interested parties.
